PROGRAMME

David Stone

The Happy Lecture :

This new lecture will provide exclusively strong magic tricks with cards, coins, and varied objects for close-up conditions just as pen, bottles, glasses...

For those who already know David, no need to say the lecture will be a real show with dozens of gags and ideas you will use for your own performances.

Morgan and West

Morgan & West teach you some of their favourite tricks that they've performed to thousands of people the world over. But wait, I hear you cry, Morgan & West are a duo and I'm certainly a solo! Fear not my friend for Morgan & West also have cleverly adapted everything they teach for use by the solo artiste. After a break return for Coding in the Pub - Morgan & West's fascinating insight into the world of coding with fun lessons and exercises for all!

Paul Wilson

The real secrets depend on principles that can elevate the simplest effect and create genuine moments of magic. This lecture explores these ideas through Paul's experience and repertoire.

Noel Qualter

Noel is a professional magician and magic consultant for Objective Productions advising on shows such as Help My Supply Teacher is Magic, Now You See It and Killer Magic. In his almost 15 years as a professional magician he's performed several stints at The Magic Castle in Hollywood, at the Harry Potter wrap party and a private show for Saudi Royal family with armed guards watching on.

He's been awarded the Magic Circle Originality prize for 2014, 2015 and 2016 and placed second in the Magic Circle Close-up Magician of the Year 2015. He has released several products to the magic community including Alarmed and iDeck.

In this lecture, he will share his inventive close-up magic which has a strong focus on quirky humour. From classic magic plots to wildly original premises there is something for all fans of close-up magic. About 50/50 card to non-cards.

Billy Reid

MagicFest performer and Magic Circle magician Billy Reid debuts his brand new close-up lecture "Next Stop Tower" at MagicFest 2017.

Billy Reid will share and teach his acclaimed "Reid Cut" along with some of his newest and most creative effects. To name but a few; "Enigma" – a secret code-breaking book test with a twist... "Serial Killer" – an impossible prediction effect with a multi-kicker ending... and "3" – a demonstration of pre-cognition that happens in the spectator's pockets and hands!

Dave Alnwick

Dave Alnwick will talk about how to build and tour a commercial magic show on a budget. You will learn how to find a close-up residency, how to promote yourself at Fringe Festivals and why creating a social media profile is vital. On top of all that you'll learn the secret to doubling your profits at every show.

Dave has had full house runs at the Edinburgh Fringe Festival for the last 6 years. Dave has had 2 national tours, 1 TV special and many close-up residencies at restaurants & bars. In this lecture, he will share everything he's learned so far.
